Diane-- I've reached out to HQ Public Affairs and Jim Kenney (senior advisor for oil and gas) for suggested messaging. Expect some info back tomorrow or Wed...

Hoping Cindy, Monica, Scott may have some ideas as well? Ozone standard updates? Joint enforcement/self-audit efforts? Air monitoring/research?

Rich x 6654

Scott/Monica/Rich,

Doug needs to work on his speech/presentation this Friday (5/18) as he departs on Tuesday morning 5/22.

I've been trying to get feedback on this for quite some time. He just would like to know what he should talk about based on the session description.

Thank you.

Cindy/Rich,

Andrew is out and Doug really needs some info for his panel participation at the Williston Basin Petroleum Council Conference in Bismarck next week. I'm not sure what Andrew was working on for this one.

Below is the email string and the information on the panel theme, and the email from Kari Cutting on the panel session

Bismarck, ND - Speaking Event – Williston Basin Petroleum Conference – Andrew/Rich, the updated agenda now includes the following note on the date Doug is speaking: "CNBC is Exclusively broadcasting live from the Conference." Also, will he need talking points for his time on the panel? " Regulation: New Day – Better Way"

Just a heads up.
